

## Washtenaw Community College

---

To Whom It May concern:

This letter is written on behalf of Mr. James W. Kugler, President of Construction Solutions, Inc. Mr. Kugler worked as the project manager on a recent project at the community college. Throughout the project he exhibited extra care to keep this office informed of any issues that surfaced during construction. He also worked to provide reasonable solutions to those problems, always keeping in mind that we had a budget limitation for this project. We were also impressed with the interest in keeping the project on schedule.

It is this attitude and care for providing a good, quality project that we enjoyed while working with Mr. Kugler. Because of this, we would recommend him as you consider your future construction projects.

Very truly yours,

C. A. Stallworth  
Director, Campus Development
