Re: 2002 Pyramid Award Program
Charter Township of Ypsilanti
Holmes Road Police Facility

To Whom It May Concern:

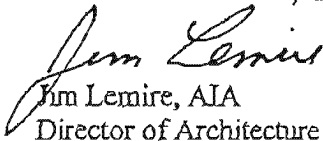

It is with great pleasure to write in support of the Nomination of the project team for the Holmes Road Police Facility Project. The problem solving expertise and competence of all members of the team were exceptional and resulted in a facility that plays a vital role to the community and is aesthetically pleasing.

The Charter Township of Ypsilanti is both a knowledgeable and understanding client to work for. They provided an exceptional comprehension of the facility program and the process of a construction project of this complexity. Even while under the scrutiny of the public, the Township was able to aggressively and confidently address any negative issues that arose during construction, resulting in a functional and beautiful site and building. The Township's thorough research prior to starting the project assured that minimal changes would be required to be performed by the Architect or during construction.

The Contractor, Construction Solutions, Inc., is also a valuable team member and played a key role in the success of the project. Providing construction expertise, prompt responses to any changes made and the ability to alter the scheduling of construction helped to make this project a positive experience. Attention to the Township's concerns resulted in a project that was built efficiently, soundly and under budget.

The Holmes Road Police Facility is a project Wolf Wineman is proud to state that we were a part of and look forward to similar projects with the same team members in the future. Thank you for your consideration.

Sincerely,
WOLF WINEMAN, INC.
