

We build strong kids, strong families, strong communities.

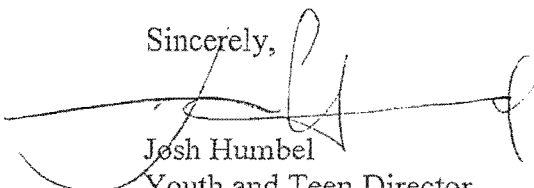

To whom it may concern,

The Ann Arbor YMCA hired Construction Solutions Inc. in the Fall of 2008 to take on a construction project at Camp Birkett. During this project three new structures were built. One was a \$315,000 lodge building designed to house camp activities ranging from arts and crafts to drama. The second was a \$235,000 combination restroom and changing facility. The last was a \$40,000 Pavilion intended for rainy day activities and meals.

From the first day it was clear that Jim Kugler and his staff had the YMCA's best interests in mind. The superintendent, Paul Fergus, was friendly and informative on all aspects of the project. The level of communication and accessibility was incredible. Always respectful of the needs of our site and programs, the construction team worked to meet each and every request and/or change in the project. Despite some terrible weather conditions, Jim and Paul pushed the project forward and completed the construction on time.

We are more than happy with our new buildings. Our campers are taking full advantage of the great facilities and wonderful site. Working with Construction Solutions was a real pleasure and we would recommend them to anyone.

Sincerely,

Josh Humbel
Youth and Teen Director
