To Whom It May Concern

Re: Construction Solutions, Inc.

Construction Solutions, Inc. contracted with the Huron-Clinton Metropolitan Authority in July of 2000 to construct a 6,000 square foot golf course maintenance building at Kensington Metropark, with site improvements, in the amount of \$488,000. In January of this year, the Authority awarded a contract to Construction Solutions in the amount of \$198,100 to construct an 800 square foot comfort station with site improvements, at Dexter-Huron Metropark.

The maintenance building was successfully completed in December of 2001. We were pleased with the quality of work provided by Construction Solutions, and with their cooperative attitude. Although construction of the comfort station has not yet begun at this time, we expect our experience to be as favorable as before. We would be pleased to provide a favorable recommendation of Construction Solutions, Inc. to their prospective clients, and we would be happy to work with them again on future projects.

If I can be of further assistance, please contact me at (810) 227-2757 ext. 5145

Sincerely,

Huron-Clinton Metropolitan Authority

Michael Arens, P.E.
Chief Engineer
