Dear Jim.

We thank you for the professional manner in which you accomplished the remodeling of the entire entrance way to our building, and the additional interior work also undertaken.

Your expertise in dealing with an incredibly difficult building department, when added to the requirement of dealing with the historical preservation group, was indeed exceptional; when judged against numerous other builders we have dealt with.

The follow-up service has also been beyond what we have experienced in the past, which makes dealing with you and the contractors involved, remarkably easy.

Thank you for a job well done!

Roy Goffett, owner.
Blind Pig.
