

BARTON HILLS VILLAGE • BOX 7554 • ANN ARBOR, MICHIGAN • 48107

To: Whom It May Concern,

In 2008, the Barton Hills Village used Construction Solutions, Inc. of Ann Arbor, Michigan, as our general contractor in the construction of a Village Hall. In general, our experience with Construction Solutions has been positive and their "can do" approach was much appreciated. More specifically:

- Timing: Project was completed by the promise date.
- Cost Control: Effective. Good communication among the Village, our architect, and the Construction Solutions eliminated any cost-related surprises.
- Quality of Construction: Equal to our expectations.
- Management of Subcontractors: Effective. There were no unreasonable delays.
- Follow-Up After Completion: Prompt and effective.

  
Wayne T. Lindstrom, Chairman  
Village Hall Construction Committee
